Description: Elevator Repair and Diagnostics within Metro Manila Email me at elevatorrepairandsales@gmail.com or call 0999-999-8875/0927-774-1480

The Delta Integrated Elevator Drive (IED) meets international safety standards (UL/CE) to ensure elevator passenger safety. The new technology integrates host controller and AC motor drive functions into one MCU which vastly improves the elevator's operational performance, efficiency and reliability. In addition, the Delta IED series provides one-stop shopping that includes all an elevator needs in planning, assembly, technology and services to lower cost and offer the ultimate flexibility for a wide range of applications. The Delta IED series integrates solutions and professional technical support, providing you with outstanding elevator reliability and performance.

Applications

High speed elevator, residential elevator, freight elevator, commercial elevator
