Listing details

Common

Title: PANTHER Step Down Transformer
Price: 550.00
Description: Panther Transformers adjust the voltage supply to make it compatible with the voltage requirement of the appliance. In the Philippines, the normal working voltage of outlets is 220V AC. Hence, if you are using appliances that require a 110V AC voltage, you would need a Panther Step-Down transformer to convert the voltage from 220V AC to 110V AC in order to use the device

Technical Specification

- Phase: Single Phase
- Max. Capacity: 100W
- Input: 220V AC
- Output: 110V AC
- Frequency: 60 Hz

AutoFeatures Include:

- One outlet (1: 110V)
- One on/off switch, which will allow you to save power without plugging and unplugging your appliance

- Fuse protection in case of overload

Condition: Used / Secondhand
