Listing details

Common

Title: Alocasia reginula (Black Velvet)-Potted Plant
Price: 300.00
Description: 300.00 Pesos per Pot

Alocasia reginula or Black velvet is exotic and elegant, with silver veins that shine against the broad leaf's dark, velvety background. Its standout feature is dark leaves and prominent pale green, white, or silver veins. The Black Velvet thick, succulent-like leaves are heart-shaped and have a velvety look and stiff texture. The leaves grow about six inches long and two-and-a-half inches wide.

It needs coarse, well-draining soil and careful watering to prevent soggy conditions. It prefers humidity of 60-75%, temperatures of 59-80°F (15-27°C), and moderate indirect light. Fertilize lightly every 4 weeks during the growing season and only repot infrequently.
