Listing details

Common

Title: Epipremnum aureum (Devil's Ivy)-Potted Plant
Price: 150.00
Description: 150.00 pesos per potted plant

A perennial evergreen houseplant desired for its glossy, green or variegated leaves on cascading stems. It only grows 6-8 ft as a horizontal groundcover, but the trailing, climbing vines can grow as long as 40 ft. This feature makes it well-suited for hanging baskets. It is able to survive for long periods in low light.

Devil's Ivy prefers medium light, well-lit but sunless. However, it will tolerate low light for long periods.
